NURSING (NURS)

NURS 100 Nursing Assistant 7 Credits
Prepares students to become nursing assistants in convalescent centers, hospitals, home, and community settings. Covers the nursing assistant's role and responsibilities on the health care team. Meets Washington State and federal requirements for nursing assistant education.
Prerequisite: None

NURS 111 Integrated Nursing Care I 3 Credits
Introduces concepts and theories utilized in the art and science of the nursing role. Emphasizes health promotion, maintenance, restoration, and evidence-based nursing care for individuals, families, and communities across the lifespan.
Prerequisite: Prerequisite: Successful admission to the Nursing Program and concurrent enrollment in NURS 111, 112, 140 and PHIL 235.

NURS 112 Integrated Nursing Care & Assessment I-Lab 3 Credits
Applies the theory from Integrated Nursing Care I in a lab setting. Includes a focus on assessments of clients across the lifespan, formulating nursing diagnoses, and documentation related to selected alterations.
Prerequisite: Prerequisite: Successful admission to the Nursing Program and concurrent enrollment in NURS 111, 112, 140 and PHIL 235.

NURS 113 Pharmacology 2 Credits
Identifies basic principles of pharmacokinetics, pharmacodynamics, calculations of drug dosages, and medication administration related to nursing care. Provides an overview of drug classifications and legal implications related to pharmacology for nurses.
Prerequisite: NURS 1st Qtr (PW Qtr 8)

NURS 121 Integrated Nursing Care II - Theory 5 Credits
Continues the study of concepts and theories utilized in the art and science of the nursing role. Students learn theory of health promotion, maintenance, restoration, and evidence-based nursing care for individuals, families, and communities across the lifespan.
Prerequisite: NURS 1st Qtr (PW Qtr 8)

NURS 122 Integrated Nursing Care & Assessment II-Lab 2 Credits
Applies the theory from Integrated Nursing Care II in a lab setting. Includes competencies necessary to meet the needs of individuals throughout the lifespan in a safe, legal, and ethical manner.
Prerequisite: NURS 1st Qtr (PW Qtr 8)

NURS 131 Integrated Nursing Care III - Theory 5 Credits
Continues the study of concepts and theories utilized in the art and science of the nursing role, students learn to apply health promotion, maintenance, restoration, and evidence-based nursing care for individuals, families and communities across the lifespan.
Prerequisite: Successful completion of 2nd quarter courses and concurrent enrollment in NURS 131, 132, 142 and PSYC 235

NURS 132 Integrated Nursing Care & Assessment III-Lab 2 Credits
Applies theory from Integrated Nursing Care III. Includes competencies necessary to meet the needs of individuals, families, and groups in a safe, legal, and ethical manner using the nursing process.
Prerequisite: Successful completion of 2nd quarter courses and concurrent enrollment in NURS 131, 132, 142 and PSYC 235

NURS 140 Integrated Nursing Care & Assessment I-Clini/Sim 2 Credits
Applies the theory from Integrated Nursing Care I in a clinical or simulation setting. Includes a focus on assessments of clients across the lifespan, formulating nursing diagnoses, and documentation related to selected alterations.
Prerequisite: Prerequisite: Successful admission to the Nursing Program and concurrent enrollment in NURS 111, 112, 140 and PHIL 235.

NURS 141 Integrated Nursing Care & Assessment II Clinical/Simulation 3 Credits
Applies the theory from Integrated Nursing Care II in a clinical or simulation setting. Includes competencies necessary to meet the needs of individuals throughout the lifespan in a safe, legal, and ethical manner.
Prerequisite: NURS 1st Qtr (PW Qtr 8)

NURS 142 Integrated Nursing Care & Assessment III Clinical/Simulation 3 Credits
Applies theory from Integrated Nursing Care III in a clinical or simulation setting. Includes competencies necessary to meet the needs of individuals, families, and groups in a safe, legal, and ethical manner using the nursing process.
Prerequisite: Successful completion of 2nd quarter courses and concurrent enrollment in NURS 131, 132, 142 and PSYC 235

NURS 211 Integrated Nursing Care IV - Theory 4 Credits
Continues the study of concepts and theories utilized in the art and science of the nursing role. Students learn to apply health promotion, maintenance, restoration, and evidence-based nursing care for individuals, families, and communities across the lifespan.
Prerequisite: NURS 3rd Qtr (PW Qtr 10)

NURS 212 Integrated Nursing Care & Assessment IV-Lab 2 Credits
Applies theory from Integrated Nursing Care IV. Analyzes and manages collaborative care to clients who are experiencing complications.
Prerequisite: NURS 3rd Qtr (PW Qtr 10)

NURS 221 Integrated Nursing Care V-Theory 4 Credits
Continues the study of concepts and theories utilized in the art and science of the nursing role. Students learn to apply health promotion, maintenance, restoration, and evidence-based nursing care for individuals, families, and communities across the lifespan.
Prerequisite: NURS 4th Qtr (PW Qtr 11)

NURS 222 Integrated Nursing Care & Assessment V-Lab 2 Credits
Applies theory from Integrated Nursing Care V. Analyzes collaborative care to clients who are experiencing complications.
Prerequisite: NURS 4th Qtr (PW Qtr 11)

NURS 231 Nursing Transition Into Practice 3 Credits
Evaluates current health care trends and professional issues within the context of nursing practice. Emphasizes mastery, synthesis, and application of care of individuals, groups, families, and communities.
Prerequisite: NURS 5th Qtr (PW Qtr 12)

NURS 232 Preceptorship 6 Credits
Facilitates synthesis of cognitive and affective skills acquired in the Nursing program through a supervised clinical practice with a preceptor in selected health care agency.
Prerequisite: NURS 5th Qtr (PW Qtr 12)

NURS 233 Capstone Project 3 Credits
Integrates knowledge of nursing research, leadership and management, nursing theories, and nursing process. Students create and implement professional development that will include a research project with a scholarly presentation.
Prerequisite: NURS 5th Qtr (PW Qtr 12)

NURS 240 Integrated Nursing Care & Assessment IV-Clinical/Simulation 3 Credits
Applies theory from Integrated Nursing Care IV in a clinical or simulation setting. Analyzes and manages collaborative care to clients who are experiencing complications.
Prerequisite: NURS 3rd Qtr (PW Qtr 10)

NURS 241 Integrated Nursing Care & Assessment V-Clinical/Simulation 3 Credits
Applies theory from Integrated Nursing Care V in a clinical or simulation setting. Analyzes collaborative care to clients who are experiencing complications.
Prerequisite: NURS 4th Qtr (PW Qtr 11)
