

SURVEYING (SURV)

SURV 201 Land Description Systems I (RETIRED) 1 Credit

A study of land description fundamentals for advanced GIS and surveying applications. Covers concepts and modes of land ownership and title transfers and fundamentals of land descriptions: land description elements, structure and types of land descriptions, words and phrases, guidelines for formatting and punctuation and construction of written land descriptions. Delivered in an on-line format.

Prerequisite: Requires basic computer skills or CIS 123.
